Technical Specifications

BABYLONE

Babylone is a spherical plexi-glass pendant with room for plants. The sphere has openings that allows stems and leaves to meander out of the globe. Almost any plant can be used to create a unique expression. The full spectrum light source satisfies the plants and gives a pleasant atmosphere. We recommend to use a mineral rich and high water retention substrate.

Dimensions	40 cm or 50 cm diameter
Colours	White (top part)
Material	Steel, PMMA, plexiglass
Light source	4-12W LED, 3000K
Power	230V
Weight	5,7 kg
Year of Design	2016

GREY TO GREEN

“Grey to Green” is a series of paving stones with integrated space for vegetation. Tiles are available with different amounts of perforation, from 1 to 8 spaces, where vegetation is allowed to grow. As paving stones make up many of the cities’ impervious surfaces, the product can be very flexibly integrated on all paved surfaces in the city.

Dimensions	35 cm x 35 cm, H=5 cm,
Material	Concrete
Weight	115 kg/m ² (vary with number of holes)
Weight/Piece	15 kg (vary with number of holes)
Pieces/M²	8 pcs
Year of Design	2014
